

Unit 1 - Module 2

Overview

In this class, we look at the Pythagorean Tuning method and the notes of a scale, covered in the textbook in Activity 1.4. Through this activity, we will look at conditionals (if-statements) and review concepts covered in the previous weeks.

Task

We will work through Activity 1.4 together.

Deliverables

Submit your Jupyter notebook with the completed activity 1.4.

Outcomes

You will learn the about the chromatic scale, notes of a scale, and Pythagorean tuning. You will get more comfortable working with variables and get introduced to if-statements in Python. Have fun.
